# Introduction: Doing Business with the University of Florida

---

## Purpose

The purpose of this publication is to provide vendors with specific solicitation information and guidelines for effectively engaging University of Florida departments and academic units. Please refer to this publication prior to contacting the offices listed herein. The telephone area code for Gainesville, Florida is 352; the area code for other locations is specified in the guide.

## Vendor Visits

All vendor visits to departments and academic units are by **appointment only**. Appointments are made during normal business hours (Monday through Friday, 8am to 5pm). Be prepared to discuss your company's qualifications, capabilities, references, products and/or services, price, and delivery.

## Getting Started

Vendors are encouraged to **first** establish a working relationship with a UF department. Following this, the vendor will complete a University of Florida Vendor Application and submit it to the specific UF department that will be procuring the products/services. The form will then be sent to Vendor Relations to be processed, along with any relevant attachments (brochures, line cards, catalogs, business cards, MBE Certification, etc.). The form can be found at <https://sbvdr.admin.ufl.edu/vendors/vendor-resource-guide/>.

## The Bidding Process

In accordance with University Policies, the University of Florida conducts an open, competitive bidding process. Depending on the dollar value, and the scope of work of the order, the bidding process may take the form of an Informal Bid, a Formal Bid, or a Proposal.

- Informal Bids or Quotes are used for procurement activities below \$75,000. Informal Bids may be solicited by telephone, mail or fax.
- Formal Bids & Proposals are used for procurement activities \$75,000 and above. Formal bids and proposals remain sealed until the scheduled public opening.

## Vendor Selection

Selection of reputable and reliable vendors is the responsibility of Procurement Services. Vendors who have not previously done business with the University of Florida are advised to contact Procurement Services, where they will be referred to the appropriate buyer. The University of Florida endeavors to conduct its business in a fair and most equitable manner. Purchases will be made on the basis of quality, service, delivery and price.
