For any material departure from this condition, vendors shall provide clear and unambiguous explanations how the departure relates in detail to the applicable sections within this ITN. If the vendor responds with an "All or None" proposal, it shall be clearly and unambiguously marked as such.

The University shall reject vendors' responses to addenda if such responses are received after the ITN closing date and time.

4.2.9 Attention to Terms and Conditions

Vendors are cautioned to thoroughly understand and comply with all matters covered under the Terms and Conditions section of this ITN. The successful Vendor is expected to enter into a form of agreement. The University agreement terms and conditions included in this ITN are intended to be incorporated into this agreement. PROPOSALS THAT ARE CONTINGENT UPON ANY CHANGES TO THESE TERMS AND CONDITIONS MAY BE DEEMED TO BE NON-RESPONSIVE AND MAY BE REJECTED (within the University's sole discretion).

The provision of such authorization shall be a prerequisite to continuation in the ITN process. The University shall not enter into extensive contract negotiations with the selected vendor(s) after the negotiation process has been completed. If the University determines that a company awarded a contract based on this ITN does not honor all aspects of the agreement reached during the negotiations in the best and final offer, the University reserves the right to immediately cancel the award, and to place the company on the University's suspended vendor list.

Company negotiators must enter the negotiations prepared to speak on behalf of the vendor's company. The University reserves the right to immediately terminate negotiations with any company whose representatives are not empowered to, or who will not, make decisions during the negotiation session. Vendors are reminded that the University may elect not to solicit a best and final offer from any company whose representative(s) have been unable or unwilling to commit to decisions reached during the verbal negotiation process.

4.2.12 Collusion Prohibited

In connection with this ITN, vendor collusion with other vendors or employees thereof, or with any employee of the University, is prohibited and may result in vendor disqualification and/or cancellation of award. Any attempt by the vendor, whether successful or not, to subvert or skirt the principles of open and fair competition may result in vendor disqualification and/or cancellation of award. Such disqualification and/or cancellation shall be at no fault or liability whatsoever to the University.

4.2.13 Improper Business Relationships/Conflict of Interest Prohibited

In connection with this ITN, each vendor shall ensure that no improper, unethical, or illegal relationships or conflict of interest exists between or among the vendor, the University, and any other party to this ITN. The University reserves the right to determine the materiality of such relationships, when discovered or disclosed, whether intended or not; and to decide whether or not vendor disqualification and/or cancellation of award shall result. Such disqualification and/or cancellation shall be at no fault or liability whatsoever to the University.

Vendors may withdraw their proposals any time prior to the ITN closing date. Vendors may request to withdraw their proposals after the ITN closing date and time prior to selection and notice of award. The University shall have sole authority to grant or deny such a request. In the event the University grants such a request, it may withhold issuing future ITN's to such vendors.

4.2.17 University's Right to Use Vendor's Ideas/Proprietary Information

If the vendor needs to submit proprietary information with the proposal, the vendor shall ensure that it is enclosed in a separate envelope from the proposal and that it is clearly designated and conspicuously labeled as such. Vendors who submit responses with information noted as proprietary may be asked to substantiate why the information is proprietary or is otherwise exempt from a public records request under Florida Law.

Selection or rejection of the proposal shall not affect the University's right of use. Provided, however, that the University will, in good faith, honor any vendor information that is clearly designated and conspicuously labeled as proprietary when the University concurs that the information is proprietary, and that trade secrets or other proprietary data contained in the proposal documents shall be maintained as confidential in accordance with procedures promulgated by the Procurement Staff and subject to limitations in Florida or Federal law. Pricing information cannot be considered proprietary. The University shall not be liable in any manner or in any amount for disclosing proprietary information if such information is not clearly so designated and conspicuously so labeled. The University shall likewise not be liable if it did not know or could not have reasonably known that such information was proprietary.

Should a request be made of the University for access to the information designated confidential or trade secret by the bidder and, on the basis of that designation, the University denies the request, the bidder may be responsible for all legal costs necessary to defend such action if the denial is challenged in a court of law.
