

Technical Data Sheet

InterMask 3-Ply Polypropylene Face Mask (InterMask)

Part Number: 12-888-001

Description:

InterMask disposable 3-ply polypropylene face mask is constructed from non-woven pleated, 6 3/4" x 3 3/4" rectangular, glass free polypropylene material with a pliable flat noseband and round elastic ear loops. CE Certification and ISO 9001 Qualified System.

Features:

- 3-Ply material provides excellent protection against bacteria and particulates
- Malleable noseband ensures adjustable seal
- High Filtration Capacity
- Very Low Breathing Resistance
- Latex Free and Fiber-Glass Fiber Free

Technical Performance:

Properties:

- Particle Filtration Efficiency
- Bacterial Filtration Efficiency
- Differential Pressure (Delta P – ΔP)

Result:

>99% at 0.1 μ m, tested by Nelson Lab
>99.5%, tested by Nelson Lab
<49 Pa/cm²

Cleanroom Compatibility:

- Product tested by Sebastian Scientific utilizing IEST-RP-CC003.3 Section B2.5
- Recommended for use in a cleanroom as a Category 2 product

Packaging, Ordering Information – Part 12-888-001:

Part#	Description	Packaging
12-888-001	InterMask	50 masks/bag, 40 bags/cs. 2000 masks/case
