1.0 STATEMENT AND SCOPE OF WORK

1.1 Summary

The University of Florida (UF) is seeking proposals from qualified firms that specialize in providing guest services associated with entertainment venue operations. The awarded supplier(s) will provide event staff for the University - primarily for the Stephen C. O'Connell Center ("Center"). Staff are needed to supplement the O'Connell center in-house staffing and Guest Services staff for university events both in and around the O'Connell Center. The State of Florida's oldest, largest, and most comprehensive university, the University of Florida is among the nation's most academically diverse public universities. The University has a long history of established programs in international education, research, and service. With more than 50,000 students, the University of Florida is now one of the five largest universities in the nation.

The University of Florida has a 2,000-acre campus and more than 900 buildings (including 170 with classrooms and laboratories). The northeast corner of campus is listed as a historic district on the National Register of Historic Places.

UF has a long history of established programs in international education, research and service. It is one of only 17 public, land-grant universities that belong to the Association of American Universities, the higher-education organization comprising the top 62 public and private institutions in North America. UF is consistently ranked among the nation's top universities: No. 5 in U.S. News & World Report's "Top Public Schools" (2020); No. 2 in Kiplinger's "Best Values in Public Colleges" (2017); and No. 3 on the Forbes list of best value public universities (2019). Additionally, UF ranked No. 6 in the New York Times list of universities that do the most to help low-income students (2015) and No. 3 in the Milken Institute's ranking of Best Universities for Technology Transfer.

As the state's oldest and most comprehensive university, tracing its beginnings to a small seminary in 1853, UF is now among the nation's most academically diverse public universities. with an enrollment of 54,000 students annually. UF is home to 16 colleges and more than 170 research centers and institutes and offers nearly 300 graduate degree programs. Only five other universities nationwide have as many programs of study on one campus as the University of Florida.

Several qualities distinguish UF among today's leading public research universities.

The first is its highly comprehensive breadth on a single campus, facilitating interdisciplinary collaboration among, for example, faculty within the adjacent colleges of journalism, engineering and medicine. The second is its unwavering support from the state of Florida, which has endorsed UF's drive to become one of the nation's very best public research universities – supporting those efforts since 2013 with hundreds of millions of dollars in additional funding to grow its faculty ranks. UF's third exceptional quality is its dynamism. Like the state of Florida, now the nation's third- largest and among its fastest-growing, UF is undergoing rapid transformation as it pursues its overarching aspiration "to be a premier university that the state, nation and world look to for leadership."

For any material departure from this condition, vendors shall provide clear and unambiguous explanations how the departure relates in detail to the applicable sections within this ITN. If the vendor responds with an "All or None" proposal, it shall be clearly and unambiguously marked as such.

The University may accept or reject in part or entirely the vendor's pricing when such offerings are not on an all-or-none basis. The University prohibits the changing of pricing after the ITN closing date and time. Unless otherwise specifically proposed by the vendor, the University reserves the right to hold such pricing and/or revenue proposal as effective for the entire intended contract term. The University may prescribe the manner and method by which pricing shall be communicated in the vendor's proposal. Representatives of the vendor(s) selected to participate in oral negotiation(s) shall be first required to submit written authorization from the company CEO or CFO attesting to the fact that the company's lead negotiator is authorized to bind the company to the terms and conditions agreed to during negotiations and as contained in the vendor's best and final offer. The provision of such authorization shall be a prerequisite to continuation in the ITN process. The University shall not enter into extensive contract negotiations with the selected vendor(s) after the negotiation process has been completed. If the University determines that a company awarded a contract based on this ITN does not honor all aspects of the agreement reached during the negotiations in the best and final offer, the University reserves the right to immediately cancel the award, and to place the company on the University's suspended vendor list.

Company negotiators must enter the negotiations prepared to speak on behalf of the vendor's company. The University reserves the right to immediately terminate negotiations with any company whose representatives are not empowered to, or who will not, make decisions during the negotiation session. Vendors are reminded that the University may elect not to solicit a best and final offer from any company whose representative(s) have been unable or unwilling to commit to decisions reached during the verbal negotiation process.

4.2.12 Collusion Prohibited

In connection with this ITN, vendor collusion with other vendors or employees thereof, or with any employee of the University, is prohibited and may result in vendor disqualification and/or cancellation of award. Any attempt by the vendor, whether successful or not, to subvert or skirt the principles of open and fair competition may result in vendor disqualification and/or cancellation of award. Such disqualification and/or cancellation shall be at no fault or liability whatsoever to the University.

4.2.13 Improper Business Relationships/Conflict of Interest Prohibited

In connection with this ITN, each vendor shall ensure that no improper, unethical, or illegal relationships or conflict of interest exists between or among the vendor, the University, and any other party to this ITN. The University reserves the right to determine the materiality of such relationships, when discovered or disclosed, whether intended or not; and to decide whether or not vendor disqualification and/or cancellation of award shall result. Such disqualification and/or cancellation shall be at no fault or liability whatsoever to the University.

Contractor represents that no University employee who has, or whose relative has, a relationship with Contractor, will violate the Code of Ethics for Public Officers and Employees, including, but not limited to F.S. Section 112.313(3) and (7) and F.S. 112.3185(6) thereof, by reason of Contractor entering into this Contract.

4.2.17 Withdrawal of ITN

Vendors may withdraw their proposals any time prior to the ITN closing date. Vendors may request to withdraw their proposals after the ITN closing date and time prior to selection and notice of award. The University shall have sole authority to grant or deny such a request. In the event the University grants such a request, it may withhold issuing future ITN's to such vendors.

4.2.18 University's Right to Use Vendor's Ideas/Proprietary Information

If the vendor needs to submit proprietary/trade secret information with the proposal, the vendor shall ensure that it is enclosed in a separate envelope from the proposal and that it is clearly designated and conspicuously labeled as such. Vendors who submit responses with information noted as proprietary may be asked to substantiate why the information is proprietary or is otherwise exempt from a public records request under Florida Law.

Selection or rejection of the proposal shall not affect the University's right of use. Provided, however, that the University will, in good faith, honor any vendor information that is clearly designated and conspicuously labeled as proprietary when the University concurs that the information is proprietary, and that trade secrets or other proprietary data contained in the proposal documents shall be maintained as confidential in accordance with procedures promulgated by the Procurement Staff and subject to limitations in Florida or Federal law. Pricing information cannot be considered proprietary. The University shall not be liable in any manner or in any amount for disclosing proprietary information if such information is not clearly so designated and conspicuously so labeled. The University shall likewise not be liable if it did not know or could not have reasonably known that such information was proprietary.

Should a request be made of the University for access to the information designated confidential or trade secret by the bidder and, on the basis of that designation, the University denies the request, the bidder may be responsible for all legal costs necessary to defend such action if the denial is challenged in a court of law.

Contractor acknowledges and agrees that (a) all documents, studies, materials and information furnished to Contractor by University or University's affiliates in connection with the Services and (b) all reports, studies, plans, deliverables, strategies, materials and other documents and information developed or prepared for University in connection with the Services or which reflect any of the documents, studies, materials or information furnished to Contractor by University (the materials described in (a) and (b) are collectively referred to as the "Information") are and shall remain at all times confidential, proprietary, and the sole property of University. Contractor agrees that it shall not use the Information and will not share the Information with its employees, except as necessary to perform the Services. Contractor may not disclose Information to third parties unless it obtains University's written consent to such disclosure. In the event Contractor is

required by subpoena or other judicial or administrative process or by law to disclose such records, Contractor shall (i) provide University with prompt notice thereof, (ii) consult with University on the advisability of taking steps to resist or narrow such disclosure, (iii) furnish only that portion of the information that is responsive to the request, (iv) comply with the requirements of all privacy laws applicable to the Information, which may include, but not be limited to, FERPA, and (v) reasonably cooperate with University in any attempt that University may make to obtain an order or other reliable assurance that confidential treatment will be accorded the records. Upon termination of this Contract or upon request by University, Contractor shall promptly return the Information to University. Notwithstanding the foregoing, if University will share or provide access to protected health information or "PHI" to Contractor for Contractor to perform the Services, University and Contractor will enter into a separate business associate agreement which will govern the confidentiality and non-use obligations of the Contractor regarding the PHI (in lieu of this provision).
